Eng110: Literature for Life Creative Project Assignment Instructions

Students must make a fifteen to twenty minute video essay/short film or creative project on any topics taught in class or a topic of their choice.

- 1) This video should refrain from elaborating on a topic that has already been widely discussed. Hence, students must find a piece of literature or socio-cultural idea they can work with to choose a topic. They are also encouraged to select a text on the course and analyse another text (or media) with it to make it enjoyable.

Generic topic:

Traffic Jams in Bangladesh

An exciting topic:

Nutritional Snacking?: Eating vegetables and fruits amidst Dhaka Traffic 2)

The information in the video essay should be well-researched and articulated in an organised way. If it requires research, interview or use a Google Doc to gather data and back your argument accordingly. A script goes a long way, so make sure to prepare one and practice beforehand. Think of it as a short research paper, except you are recording this instead of writing a 10-page paper (How exciting!). 3) Make sure to keep the audience engaged. A fast-paced video often distracts the viewers. In a video essay, it is important to discuss a topic that is often considered niche or you may choose a topic that attempts to bridge a gap between two narratives. Check the samples for better understanding of the concept. 4) Visuals can be very interesting as well. You do not require a high end camera. Simply, use your mobile phone if you must, and remember to edit accordingly. However, remember that less is more (Check the video essay samples). No usage of AI images is permissible. Remember: Nothing is as brutally beautiful as the human existence's perception from the eye.

Alternative:

You can choose to make a short film as well. There are no hard and fast rules for a short film except:

The visuals and story narrative must be interesting enough to be an excellent short film.

The short film can be ten minutes long as well only if it is working with an abstract topic. An

example of a mediocre short film with high production value could be

Note:

-No usage of AI music, art, video is permissible or video is permissible. Nothing competes with lived experiences and the beauty of being human.

-Incase of a video essay you must be in focus because you are the most important element in the project since what you say matters the most.

The video must be at least 15 minutes long.
